

About Us

We are an informal group who meet to chat and socialise

This Group is run by volunteers

Our ages range from 38 to over 80

We meet at the Health Resource Centre in the West End

Our Improvement

Improve Public Transport on Buses

We see lots of buses with only a few passengers on board

Our Solution

Less of these

More of these

More small buses on the estates – hail and ride

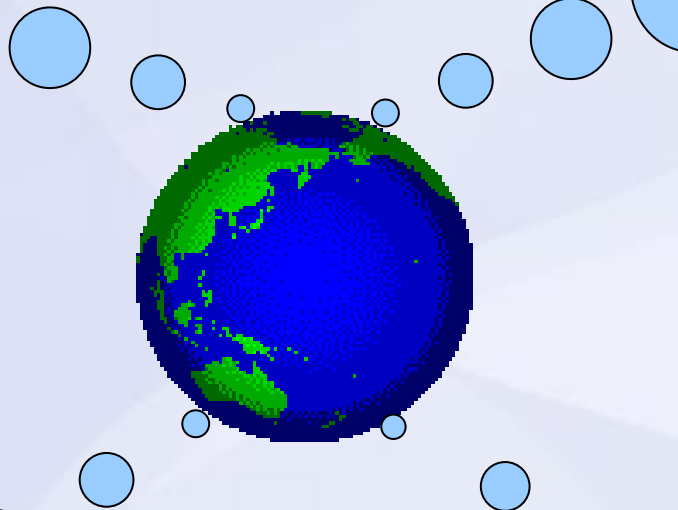

More flexibility of bus services – small ones off peak – larger ones in peak times

Help improve our environment

Are the bus companies duplicating services ?

Why so many bus services to & from Metro Stations ?

Why are some routes saturated with buses ?

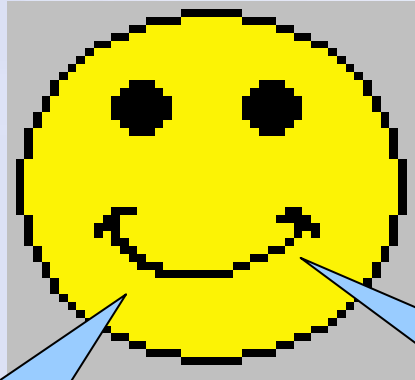

***Cost of fares
are very
expensive***

***Would this
make the
services more
cost effective ?***

***Reduced
fares will
encourage
more people
to use buses***

***Less people
will use their
cars***

Improved Customer Care

Bus drivers be more aware of people getting on and off the buses

Class Sunday as a working day – people rely on public transport to get to work

THANK YOU
